EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech. Major	Indian Institute of Information Technology, Una	8.07 (Current)	2022-Present
Senior Secondary	CBSE Board	77.4%	2020-21
Secondary	ICSE Board	91.80%	2018-19

EXPERIENCE

- Handlers** Oct 28, 2024 - Jan 26, 2025 Remote
Flutter Developer Intern (Flutter)
 - Developed and maintained cross-platform mobile applications using Flutter, focusing on scalable UI and performance optimization.
 - Collaborated with backend services (Spring Boot APIs) to ensure seamless mobile-backend integration.
 - Integrated REST APIs and managed application data flow efficiently.
 - Applied state management using GetX to build responsive and maintainable applications.
 - Participated in code reviews and debugging sessions to improve app performance and reliability.

PROJECTS

- Airbnb Clone – Scalable Backend System (Spring Boot, PostgreSQL, JPA)** GitHub Link
 - Designed and developed a scalable backend system using Spring Boot following layered architecture (Controller-Service-Repository)
 - Implemented dynamic hotel search with optimized queries, eliminating N×M complexity via inventory-based modeling
 - Built booking APIs with transactional integrity using ACID principles and proper relational mapping
 - Designed date-wise inventory system to prevent overbooking and enable efficient querying.
 - Designed a dynamic pricing engine using Strategy Pattern (surge, occupancy, seasonal pricing).
 - Integrated Spring Security with JWT-based authentication and role-based access control.
 - Implemented Stripe payment integration for booking transactions and refunds.
- KrishiBazaar – Marketplace App** GitHub Link
 - Built a farm-to-customer marketplace enabling farmers to sell produce directly to buyers without intermediaries.
 - Implemented categorized product listings and a seamless purchase flow for direct transactions.
 - Used Provider with MVVM architecture to ensure a clean, scalable, and maintainable codebase.
 - Integrated the data.gov.in API to fetch and display real-time commodity and market price insights.
- InboxPro – AI-powered Email Manager** Github Link
 - Architected the application using Clean Architecture, ensuring clear separation of UI, business logic, and service layers.
 - Implemented AI-powered email drafting and smart reply generation with efficient and optimized state management.
 - Applied SOLID principles to design modular, scalable, and maintainable components.
 - Designed secure local data handling and structured REST API communication for seamless data flow.

TECHNICAL SKILLS (JAVA + MOBILE DEVELOPMENT)

- Mobile Development:** Flutter (Android & iOS), Kotlin (Basic)
- Languages:** Java, Dart, Kotlin (Basic), C++, SQL
- Backend Integration:** REST APIs, Firebase (Authentication, Firestore)
- Backend:** Spring Boot, JPA/Hibernate
- State Management:** GetX, Provider
- Database:** MySQL, PostgreSQL
- Tools:** Git, Postman
- CS Core:** OOP, DBMS, OS, DSA

EXTRACURRICULAR ACTIVITIES

- Delivered speeches on events like Partition Day, National Space Day, and at Kendriya Vidyalaya workshops.

ACHIEVEMENTS

- Competitive Programming:** Active participant on CodeChef HR: 1679, LeetCode 350+ problems, and Codeforces, regularly solving problems to strengthen algorithmic thinking and DSA proficiency.
- Hackathon Leadership:** Led and coordinated IIIT Una Hackathon 2023 under the FORCE club.
- Technical Excellence:** Built and maintained production-level Flutter apps integrating REST APIs, Firebase, and GetX, demonstrating strong cross-platform development and problem-solving skills.
