Education

Indian Institute of Information Technology, Una

Nov 2022 – May 2026

Bachelor of Technology in Electronics and Communication Engineering

Una, Himachal Pradesh

Experience

InfraWave Solutions | Fullstack Web Developer Intern

Dec 2024 – Jan 2025

- Designed RESTful APIs using Express.js and TypeScript, interfacing with React.js front-end components, which resulted in a 20% faster data retrieval and rendering for end users in production.
- Improved 8 interactive UI components using React.js and TypeScript, achieving seamless integration with backend services through RESTful APIs, and adhering to component-based architecture principles.
- Organized the transition of legacy systems to a modern cloud infrastructure on AWS, which provided a 15% reduction in operational costs and improved scalability for the platform.
- Implemented comprehensive unit testing for the company's core authentication module, increasing test coverage from 60% to 98% using Jest and React Testing Library, resulting in a more stable build.

Projects

Janhit: A civic issues raising platform | *MongoDB, Express.js, React.js, Node.js, Leaflet, Cloudinary* **GitHub** | **Live**

- * Designed a full-stack Smart Governance website, enabling **30% faster** civic issue reporting, integrating real-time map-based tracking, community feed, and disaster-relief.
- * Pioneered an interactive issue-reporting interface with map integration and voting mechanisms, reducing complaint submission time by 60% and improving interface responsiveness by 40% during internal testing.
- * Launched community participation functionality, enabling residents to upvote issues, which improved prioritization of public concerns, saving the city 10 minutes per issue reported initially.

AR Dressing Room | *MongoDB, Express.js, React.js, Node.js, OpenCV*

GitHub | **Live**

- * Developed a comprehensive E-commerce website using the MERN stack, focusing on a Virtual Try-On feature for real-time product previews; enhanced user satisfaction scores by 0.7 points.
- * Implemented advanced computer vision pipelines with OpenCV and MediaPipe, improving virtual try-on feature user engagement by 18% and ensuring seamless accessory alignment on live video feeds.
- * Conceived a secure user authentication system leveraging JWT and bcrypt, resulting in a 25% reduction in unauthorized account access within the initial three months of implementation, exceeding security objectives.

Technical Skills

Programming Languages: C++, JavaScript, Python, TypeScript.

Frontend: React.js, Redux, HTML, CSS, Tailwind CSS.

Backend: Node.js, Express.js, REST APIs, JWT Auth, MongoDB, PostgreSQL, SQL.

Tools & DevOps: Git, GitHub, Docker, GitHub Actions (CI/CD), Postman.

Core CS & System Skills: Data Structures, Algorithms, Object-Oriented Programming, DBMS, OS, Linux, Basic System Design.

Achievements & Coding Profiles

- * **3-star** Coder on Codechef with a **max rating of 1729** (codechef.com/ayushh08782/).
- * Achieved a LeetCode rating of **1593**, ranking in the top 24% globally. (leetcode.com/infinite-karma/).
- * Solved **700+** coding different problems across platforms.
- * **Gold Medalist**, in Tug of War, Yalgaar (IIITU)

Leadership & Extracurriculars

Technical member , Entrepreneurship & Incubation Cell (EIC) – Website

Oct 2023 – Nov 2025

IIIT Una

- * Spearheaded development and management of the official **E-Summit website** (esummit.iiitu.ac.in/), guiding a team of 15 members; streamlined event operations and elevated participant experience through user-friendly design.
