New Delhi, India

Professional Summary

Results-driven Software Engineer with 4+ years of experience designing and delivering scalable backend systems and cloud-native applications. Proven ability to reduce system latency, mentor junior developers, and collaborate cross-functionally to ship high-quality products on time. Passionate about clean architecture and open-source contribution.

Work Experience

Senior Software Engineer

Jan 2023 – Present

Infosys Ltd., Bengaluru

- Led migration of monolithic payment service to microservices, cutting p99 latency by **38%** and improving deploy frequency from weekly to daily.
- Designed a real-time fraud-detection pipeline using Apache Kafka and Python, processing **2M+ transactions/day** with sub-50 ms alert generation.
- Mentored 5 junior engineers through bi-weekly code reviews and technical workshops.
- Automated CI/CD pipelines with GitHub Actions + Terraform, reducing release cycle time by 60%.

Software Engineer

Jul 2021 – Dec 2022

Wipro Technologies, Pune

- Built RESTful APIs (Node.js / Express) serving 500K daily active users for a fintech client; achieved 99.95% uptime SLA.
- Optimised PostgreSQL queries and introduced Redis caching, reducing average API response time from 420 ms to 95 ms.
- Collaborated with UX and product teams in a two-week sprint cycle, consistently delivering features ahead of schedule.

Software Developer Intern

Jan 2021 – Jun 2021

Tata Consultancy Services, Mumbai

- Developed an internal HR dashboard (React + Django) that reduced manual reporting time by 5 hours/week for the HR team.
- Wrote unit and integration tests (pytest, Jest) achieving 85% code coverage.

Education

B.Tech. in Computer Science & Engineering

2017 – 2021

Indian Institute of Technology (IIT) Delhi

- CGPA: **8.7 / 10**
- Relevant coursework: Data Structures & Algorithms, Operating Systems, Distributed Systems, Database Management, Computer Networks.

Technical Skills

Languages:	Python, JavaScript / TypeScript, Java, Go, SQL, Bash
Frameworks:	Node.js, Express, FastAPI, Django, Spring Boot, React
Cloud & DevOps:	AWS (EC2, S3, Lambda, RDS), Docker, Kubernetes, Terraform, GitHub Actions
Databases:	PostgreSQL, MySQL, MongoDB, Redis, Elasticsearch
Tools:	Git, Jira, Postman, Grafana, Prometheus, Apache Kafka

Projects

SmartBudget — *Personal Finance Tracker* github.com/arjunsharma/smartbudget

- Full-stack web app (React + FastAPI + PostgreSQL) for expense tracking with AI-generated monthly insights using OpenAI API.
- Deployed on AWS using Docker Compose + Nginx; **800+ active users**.

LogVista — *Distributed Log Aggregation Tool* github.com/arjunsharma/logvista

- Open-source CLI + dashboard for aggregating logs from multiple microservices; 120+ GitHub stars.
- Built with Go (backend) and Vue.js (frontend); supports Elasticsearch and Loki as storage backends.

Certifications

- | | |
|--|------|
| • AWS Certified Solutions Architect – Associate | 2023 |
| • Google Professional Cloud Developer | 2022 |
| • Docker Certified Associate | 2022 |

Achievements

- **Hackathon Winner** — Smart India Hackathon 2020 (National level, 1st place).
- Rated **Expert (2100+)** on Codeforces; solved 700+ problems on LeetCode.
- Technical blog on Medium with **12K+ monthly readers** covering system design.
